

ULTRACURE® 1100 DATA SHEET

EST. 1978

ISO-9001

The **Ultracure® 1100** is a benchtop, high output UV LED curing conveyor designed to quickly and completely cure UV adhesives and sealants.

Product Part #: 110020070

Features:

- Benchtop conveyor UV curing unit
- High intensity UV LED (365nm)
- Variable intensity control
- Color touchscreen control
- Conveyor belt direction reversible
- Easily adjustable UV LED elevator (3" stroke)
- Specially designed Teflon® coated Kevlar® belt
- Integrated heat exchanger for UV LED units
- Integrated exhaust blower/filter assists with cooling
- Heavy duty all aluminum construction
- Includes 200-240VAC Chiller **OR** 100-120VAC Chiller (Customer must choose desired voltage)

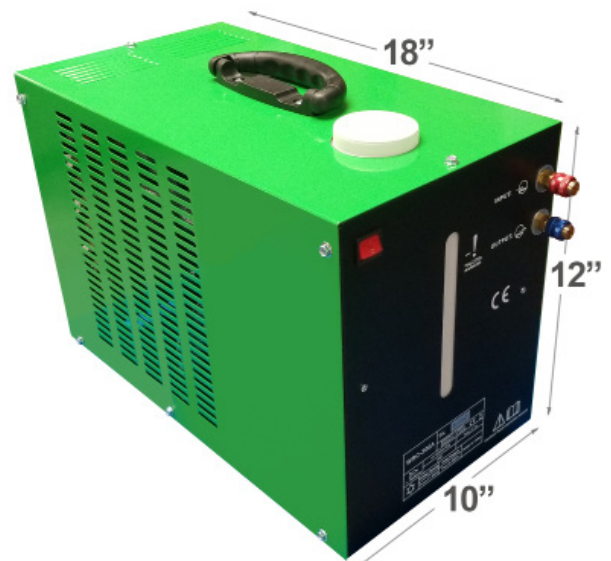

Specifications:

- Power requirement: 100-240 vac, 50/60hz
- Conveyor speed range: 0.1" to 2.6"/second
- Maximum load weight: 30lbs
- Machine dimensions: 20"W x 21"T x 54"L
- Conveyor dimensions: 8"W x 3"T x 41"L
- UV curing window area = 6"W x 3"T x 6"L
- Weight: 117 lbs

Warranty:

- Standard 1 year from purchase date
