

## R185 RESERVOIR DATA SHEET

EST. 1978

ISO-9001

Hernon® offers an array of reservoirs in a variety of sizes and with many dispensing tube fitting and porting options to choose from. These durable reservoirs are ideal for adhesive, sealant, solvent or lubricant dispensing systems. Hernon® reservoirs are designed for consistent dispensing, quick refills and to be rugged enough to withstand extended use in demanding industrial production environments. The R185 is a 5 gallon pressure reservoir.

**Product Part #:** 110-109

**Features:**

- Five gallon capacity pressure reservoir
- Air pressure (maximum) 0-100psi (7bar)
- Teflon® encapsulated ring seal
- 2 dispense ports
- 316 stainless steel construction

**Specifications:**

- Internal reservoir volume: 5 Gallon (18.93 Liters)
- **Tubing, fittings & regulator sold separately**

**Available Options:**

- Optional low level sensor
- Optional **CE** Rating

**Warranty:**

- Standard 1 year from purchase date
